

# MASAMUNE OGURI

Curriculum Vitae  
(as of December 1, 2025)

## CONTACT INFORMATION

---

**Address** Center for Frontier Science, Chiba University, 1-33 Yayoi-cho, Inage-ku, Chiba 263-8522, Japan  
**Room** Faculty of Science Bldg. 2 #204  
**Phone** +81-43-290-3522  
**E-mail** [masamune.oguri@chiba-u.jp](mailto:masamune.oguri@chiba-u.jp)  
**Webpage** <https://oguri.github.io>

## EDUCATION

---

**University of Tokyo, Tokyo, Japan** *Apr 2002 – Jul 2004*  
Ph.D. in Physics, July, 2004  
Dissertation: “Strong Gravitational Lenses in a Cold Dark Matter Universe”  
Adviser: Yasushi Suto

**University of Tokyo, Tokyo, Japan** *Apr 2000 – Mar 2002*  
M.S. in Physics, March, 2002  
Dissertation: “Resolving the Central Density Profile of Dark Matter Halos with Gravitational Lensing Statistics”  
Adviser: Yasushi Suto

**University of Tokyo, Tokyo, Japan** *Apr 1996 – Mar 2000*  
B.A. in Physics, March, 2000

## PROFESSIONAL EXPERIENCE

---

Feb 2022 – present	Professor	Center for Frontier Science, Chiba University
Apr 2022 – present	Professor	Department of Physics, Chiba University
May 2014 – Jan 2022	Assistant Professor (with tenure)	Research Center for the Early Universe, University of Tokyo
Oct 2013 – Jan 2022	Associate Scientist	Kavli Institute for the Physics and Mathematics of the Universe, University of Tokyo
Aug 2013 – Jan 2022	Assistant Professor (with tenure)	Department of Physics, University of Tokyo
Apr 2011 – Aug 2013	Assistant Professor	Kavli Institute for the Physics and Mathematics of the Universe, University of Tokyo
Jul 2009 – Apr 2011	Postdoctoral Fellow	National Astronomical Observatory of Japan
Jul 2006 – Jun 2009	Research Associate	Kavli Institute for Particle Astrophysics and Cosmology, Stanford University
Sep 2005 – Jun 2006	Postdoctoral Fellow	Department of Astrophysical Sciences, Princeton University
Sep 2004 – Aug 2005	Visiting Research Fellow	Department of Astrophysical Sciences, Princeton University
Apr 2004 – Aug 2005	JSPS Research Fellow	Department of Physics, University of Tokyo

## RESEARCH INTERESTS

---

Cosmology, Astrophysics, Cosmological Structure Formation, Gravitational Lensing

## PROFESSIONAL SOCIETIES

---

- Astronomical Society of Japan
- Physical Society of Japan
- Association of Japanese Theoretical Astronomy and Astrophysics
- Group of Optical and Infrared Astronomers
- International Astronomical Union

## PRIZES AND AWARDS

---

- Jul 2024 Japan Academy Prize
- Mar 2019 Hayashi Chushiro Prize, Astronomical Society of Japan
- Mar 2009 Young Scientist Award, Physical Society of Japan
- Feb 2006 Inoue Research Award for Young Scientists
- Mar 2005 President's Prize of the University of Tokyo

## PRIZES AND AWARDS (CO-RECIPIENT)

---

- Mar 2024 PASJ Excellent Paper Award, Astronomical Society of Japan (for Hamana et al. 2020)
- Mar 2023 PASJ Excellent Paper Award, Astronomical Society of Japan (for Matsuoka et al. 2018)
- Mar 2021 PASJ Excellent Paper Award, Astronomical Society of Japan (for Hikage, Oguri, et al. 2019)

## TEACHING EXPERIENCE

---

### Chiba University

- Course on *Astrophysics III* in FY2025–
- Course on *Frontier Science Seminar 1* in FY2025–
- Course on *Exercises for Fundamental Physics II* in FY2025–
- Course on *Astrophysics B* in FY2023–
- Course on *Introduction to Astrophysics* in FY2023–
- Course on *Special Lecture on Advanced Science and Engineering Ia* in FY2023–
- Course on *Frontier Science Seminar IA, IB, IIA, IIB* (mechanics, mathematics, thermodynamics, quantum physics, statistical physics) in FY2022–
- Course on *Astrophysics A* in FY2022–FY2024

### University of Tokyo

- Course on *Exercise in Physics* (quantum mechanics, analytic mechanics) in FY2014–FY2017, FY2019–FY2021
- Course on *Senior Projects in Theoretical Physics* (astrophysics) in FY2014–FY2016, FY2018, FY2020
- Teaching assistant (general relativity, astrophysics) in FY2002, FY2003

### Invited Lectures

- Intensive lecture on gravitational lensing given at Kyoto University (Oct 2024)
- Intensive lecture on gravitational lensing given at Rikkyo University (May 2024)
- Lecture on weak lensing given in summer school at ITB, Bandung, West Java, Indonesia (Sep 2020)
- Intensive lecture on weak lensing cosmology given in winter school at KEK (Jan 2020)
- Intensive lecture on gravitational lensing given at Kyoto University (Mar 2017)
- Intensive lecture on gravitational lensing given in summer school at Beijing Normal University (Jul 2012)

### External Examining

- Examined Master's theses at Univ. of Hong Kong (2018, 2021, 2023), PCU of Chile (2013)

## GRADUATE STUDENTS (PH.D.) SUPERVISED

---

- Hiroki Kawai (Univ. of Tokyo, Ph.D. in Physics in 2025)
- Yuting Liu (Beijing Normal University, Ph.D. in Astronomy in 2024, as a co-supervisor)
- Xiangchong Li (Univ. of Tokyo, Ph.D. in Physics in 2021, as a co-supervisor)
- Ryoma Murata (Univ. of Tokyo, Ph.D. in Physics in 2020)
- Taizo Okabe (Univ. of Tokyo, Ph.D. in Physics in 2020, as a co-supervisor)
- Ryota Kawamata (Univ. of Tokyo, Ph.D. in Astronomy in 2018, as a co-supervisor)
- Cristian E. Rusu (Univ. of Tokyo, Ph.D. in Astronomy in 2014)
- Yuichi Higuchi (Univ. of Tokyo, Ph.D. in Astronomy in 2014)
- Yozo Kawano (Nagoya University, Ph.D. in Physics in 2006)

## GRADUATE STUDENTS (MASTER) SUPERVISED

---

- Fumihiko Chuman (Chiba Univ., M.S. in Physics in 2025)
- Hirotaka Yarimoto (Chiba Univ., M.S. in Physics in 2025)
- Akinari Hamabata (Univ. of Tokyo, M.S. in Physics in 2018)

- Masafumi Ishigaki (Univ. of Tokyo, M.S. in Physics in 2015, as a co-supervisor)
- Shohei Omote (Univ. of Tokyo, M.S. in Physics in 2015)

## UNDERGRADUATE STUDENTS SUPERVISED

---

- Momoka Fujikawa (Chiba Univ., B.Sc. in Physics in 2025)
- Hirotaka Ishijima (Chiba Univ., B.Sc. in Physics in 2024)
- Shun Nishida (Chiba Univ., B.Sc. in Physics in 2024)
- Ayari Kitamura (Chiba Univ., B.Sc. in Physics in 2023)
- Takumi Shimasue (Chiba Univ., B.Sc. in Physics in 2023)
- Kai-Feng Chen (National Taiwan Univ., B.Sc. in Physics and Math in 2020)

## POSTDOCTORAL RESEARCHERS MENTORED

---

- Katsuya T. Abe (Chiba Univ., 2023–2024)
- Kenneth C. Wong (Univ. of Tokyo, 2018–2021, now a project assistant professor at Univ. of Tokyo, Japan)
- Anupreeta More (Univ. of Tokyo, 2012–2018, now a research faculty at IUCAA, Pune, India)

## EXTERNAL GRANTS

---

### Ongoing

- PI, 45,370,000 JPY, Grant-in-Aid for Scientific Research (A), FY2025–FY2029
- Co-I (PI: Y. Komiyama), 47,190,000 JPY, Grant-in-Aid for Scientific Research (A), FY2025–FY2027
- Co-I (PI: H. Furusawa), 18,590,000 JPY, Grant-in-Aid for Scientific Research (B), FY2024–FY2026
- Co-I (PI: S. Miyazaki), 688,610,000 JPY, Fund for the Promotion of Joint International Research (International Leading Research), FY2022–FY2028
- Co-I (PI: N. Okabe), 16,510,000 JPY, Fund for the Promotion of Joint International Research (Fostering Joint International Research (B)), FY2019–FY2024

### Finished

- PI, 16,510,000 JPY, Grant-in-Aid for Scientific Research (B), FY2022–FY2025
- PI, 6,240,000 JPY, Grant-in-Aid for Challenging Research (Exploratory), FY2022–FY2024
- Co-I (PI: S. Miyazaki), 152,750,000 JPY, Grant-in-Aid for Transformative Research Areas (A), FY2020–FY2024
- Co-I (PI: S. Miyazaki), 44,200,000 JPY, Grant-in-Aid for Scientific Research (A), FY2020–FY2022
- PI, 4,420,000 JPY, Grant-in-Aid for Scientific Research (C), FY2018–FY2022
- PI, 2,600,000 JPY, Grant-in-Aid for Scientific Research on Innovative Areas (Research in a proposed research area), FY2020–FY2021
- PI, 2,340,000 JPY, Grant-in-Aid for Scientific Research on Innovative Areas (Research in a proposed research area), FY2018–FY2019
- Co-I (PI: S. Miyazaki), 127,790,000 JPY, Grant-in-Aid for Scientific Research on Innovative Areas (Research in a proposed research area), FY2015–FY2019
- PI, 3,640,000 JPY, Grant-in-Aid for Young Scientists (B), FY2014–FY2017
- PI, 4,290,000 JPY, Grant-in-Aid for Young Scientists (B), FY2011–FY2013
- Science PI (Budget PI: R. Blandford), 49,063 USD, Chandra grant, FY2010

## SERVICE

---

- 2025– Steering Committee (2025– chair), Association of Japanese Theoretical Astronomy and Astrophysics
- 2025– Award Nomination Committee, Physical Society of Japan
- 2023– Hayashi Chushiro Prize Committee, Astronomical Society of Japan
- 2022– Subaru Science Advisory Committee (2022–2024 chair), National Astronomical Observatory of Japan
- 2022– Harassment Prevention Committee, Chiba University
- 2022– Cyber Security Incident Response Team, Chiba University
- 2022– Privacy Officer, Chiba University
- 2022– Budget Committee, Center for Frontier Science, Chiba University
- 2022– Admission Committee, Center for Frontier Science, Chiba University
- 2022– Academic Affairs Committee, Center for Frontier Science, Chiba University
- 2022–2024 Review Committee, Japan Society for the Promotion of Science
- 2018–2022 Hiring Committee, National Astronomical Observatory of Japan
- 2013–2018 Library Committee, Department of Physics, Univ. of Tokyo
- 2013–2017 Editorial Board, The Astronomical Herald, Astronomical Society of Japan

## PEER REVIEWS

---

- Regular referee of papers submitted to ApJ, MNRAS, A&A, OJAp, JCAP, PTEP, PASJ, PRL, PRD, Nature Astronomy (180+ papers)
- Reviewer of grant proposals for JSPS (Japan), NSF (USA), FNRS (Belgium), NCN (Poland), FWF (Austria), NWO (Netherlands), RS (UK), SNSF (Switzerland), DFG (Germany), DiRAC (UK)
- Reviewer of observing proposals for JWST, HST, Subaru, CFHT, ALMA

## CONFERENCES, WORKSHOPS, AND MEETINGS ORGANIZED

---

- 2025 SOC, “JEC meeting”, Kyoto, March 2–3, 2025
- 2025 SOC, “Dark Matter under the Gravitational Lens”, CUHK, Hong Kong, April 7–10, 2025
- 2024 SOC, “JEC meeting”, Nagoya, November 25–26, 2024
- 2024 SOC, “The Second SUPER-IRNET Workshop: Sparkling Our Collaboration at the Cosmic Gate”, Beppu, July 23–26, 2024
- 2024 LOC/SOC, “UNIONS/JEC joint meeting”, Tokyo, January 26–27, 2024
- 2024 SOC, “Subaru Users Meeting FY2023”, NAOJ, January 23–25, 2024
- 2023 SOC, “From Large to Small Structures in the Universe”, Tokyo, October 30–November 2, 2023
- 2023 SOC, “Subaru in the era of Euclid”, NAOJ, September 14, 2023
- 2023 LOC/SOC, “ILR kickoff meeting”, NAOJ, May 31–June 2, 2023
- 2023 SOC, “Subaru Users Meeting FY2022”, NAOJ, January 31–February 2, 2023
- 2021 SOC, “Euclid Consortium Meeting 2021”, Lausanne, Switzerland, May 25–28, 2021
- 2021 SOC co-chair, “Time-domain cosmology with strong gravitational lensing”, Kavli IPMU, Jan 25–Feb 2, 2021
- 2019 SOC, “Gravity meets Plasma”, Yunnan, China, August 19–21, 2019
- 2019 SOC, “Panchromatic Panoramic Studies of Galaxy Clusters: from HSC to PFS and ULTIMATE”, ASIAA, Taiwan, March 11–13, 2019
- 2018 SOC, “Shedding Light on the Dark Universe with Extremely Large Telescopes at Trieste”, Trieste, Italy, July 2–6, 2018
- 2018 SOC, “Shedding Light on the Dark Universe with Extremely Large Telescopes at UCLA”, UCLA, USA, April 2–6, 2018
- 2017 SOC, “Shedding Light on the Dark Universe with Extremely Large Telescopes at Lanzhou”, Lanzhou, China, August 30–September 2, 2017
- 2016 LOC, “HSC collaboration meeting 2016 August”, Kavli IPMU, August 23–25, 2016
- 2015 SOC, “The Frontier Fields: Transforming our understanding of cluster and galaxy evolution”, Honolulu, USA, August 5–7, 2015
- 2014 LOC chair/SOC, “Galaxy and Cosmology in Light of Strong Lensing”, Kavli IPMU, November 17–21, 2014
- 2014 LOC, “HSC collaboration meeting 2014 August”, Hiroshima, August 25–26, 2014
- 2014 LOC, “HSC collaboration meeting 2014 March”, Hilo, USA, March 9–10, 2014
- 2013 LOC, “HSC collaboration meeting 2013 August”, NAOJ, August 30–September 1, 2013
- 2013 LOC, “4th PFS collaboration meeting”, Kavli IPMU, March 25–28, 2013
- 2012 LOC, “2nd PFS collaboration meeting”, Kavli IPMU, January 8–12, 2012

## MAJOR INVOLVEMENT IN LARGE PROJECTS

---

### Euclid satellite mission

- Member, Euclid Consortium Board (2021–present)
- Lead, Japanese Euclid Consortium (2021–present)
- Member, Steering Group of UNIONS (consortium of Subaru, CFHT, and Pan-STARRS) (2020–present)
- PI, WISHES (an intensive program of Subaru telescope for Euclid) (2020–2024)

### Hyper Suprime-Cam Subaru Strategic Program (HSC-SSP)

- ‘Builder’ status (2014–present)
- Co-chair, Strong Lensing Working Group (2015–2017, 2021–present)
- Member, HSC Executive Board (2022–2024)
- Member, eROSITA-DE-HSC-SSP Collaboration Board (2017–2022)
- Co-chair, Cluster Working Group (2009–2017)

### Rubin Observatory Legacy Survey of Space and Time (Rubin/LSST)

- International Data Rights Holder (2023–present)

### Sloan Digital Sky Survey (SDSS)

- Co-PI, SDSS Quasar Lens Search (SQLS, a survey of gravitationally lensed quasars in SDSS) (2002–2012)

## MAJOR CODE DEVELOPMENTS

---

### GLAFIC

2008 – present

- Public software for analyzing gravitational lensing. It is available at <https://github.com/oguri/glafic2> and is widely used in the community.

### CAMIRA

2014 – present

- Code for optical cluster finding and is used in SDSS and HSC-SSP.

## PUBLICATIONS

---

As of December 2025, more than 350 papers are published in international peer-reviewed journals, and the total number of citations to these papers is approximately 29,000 according to ADS. The h-index is 92. These publications include 54 first-author papers, and the total number of citations to my first-author papers is approximately 5,000, again according to ADS. Check <https://oguri.github.io/paper.html> for the latest status. The full list is provided separately.

## PRESENTATIONS AT CONFERENCES, WORKSHOPS, AND MEETINGS

---

As of December 2025, more than 40 invited talks at international conferences and workshops are given. The full list is provided separately.

## PRESS RELEASES

---

- 2025 “Beyond the ‘Dragon Arc,’ a treasure trove of unseen stars”, Jan 7, 2025
- 2024 “Webb captures star clusters in Cosmic Gems arc”, Jun 24, 2024
- 2023 “The Oxygen Mystery in the Early Universe: Unveiling a Rapid Increase”, Nov 9, 2023
- 2023 ““A New Lens” into the Universe’s Most Energetic Particles”, Oct 12, 2023
- 2023 “First-of-its-kind measurement of the Universe’s expansion rate weighs in on a longstanding debate in physics and astronomy”, May 12, 2023
- 2023 “Hubble Unexpectedly Finds Double Quasar in Distant Universe”, Apr 6, 2023
- 2023 “How to see the invisible: Using dark matter distribution to test our cosmological model”, Apr 4, 2023

2022 “Hubble Captures 3 Faces of Evolving Supernova in Early Universe”, Nov 10, 2022  
 2022 “Record Broken: Hubble Spots Farthest Star Ever Seen”, Mar 31, 2022  
 2021 “ALMA Discovers Rotating Infant Galaxy with Help of Natural Cosmic Telescope”, Apr 22, 2021  
 2020 “More than Meets the Eye: Complete Imaging of a Cluster Collision”, Nov 12, 2020  
 2020 “Can Black Hole Fire Up Cold Heart of the Phoenix?”, Aug 30, 2020  
 2020 “Rare Encounters between Cosmic Heavyweights”, Aug 27, 2020  
 2020 “Artificial Intelligence tool developed to predict the structure of the Universe”, Feb 5, 2020  
 2019 “Subaru Telescope helps determine that dark matter is not made up of tiny primordial black holes”, Apr 2, 2019  
 2019 “Astronomers Discover 83 Supermassive Black Holes in the Early Universe”, Mar 13, 2019  
 2018 “Cosmological constraints from the first-year Subaru Hyper Suprime-Cam survey”, Sep 26, 2018  
 2018 “The Farthest Star Ever Seen”, Apr 3, 2018  
 2018 “Unprecedentedly Wide and Sharp Dark Matter Map”, Mar 1, 2018  
 2016 “Ancient Eye in the Sky”, Jul 26, 2016  
 2015 “Dark Matter Map Begins to Reveal the Universe’s Early History”, Jul 2, 2015  
 2015 “ALMA uses ‘Natural Telescope’ to Image Monstrous Galaxy near the Edge of the Universe”, Jun 9, 2015  
 2014 “Confirming a 3-D Structural View of a Quasar Outflow ~Conclusions drawn from additional observations~”, Oct 28, 2014  
 2014 “Cosmic Illusion Revealed: Gravitational Lens Magnifies Supernova”, Apr 25, 2014  
 2013 “‘Standard Candle’ Supernova Extraordinarily Magnified by Gravitational Lensing”, Apr 23, 2013  
 2013 “3-D Observations of the Outflow from an Active Galactic Nucleus”, Feb 19, 2013  
 2012 “‘Cosmic Mirages’ Confirm Accelerated Cosmic Expansion”, Apr 10, 2012  
 2012 “Precise measurement of dark matter distribution with strong and weak gravitational lensing”, Jan 17, 2012  
 2011 “Laser Guide Star Adaptive Optics Sharpens Subaru Telescope’s Eyesight and Opens a New Vision of the Distant Universe”, July 6, 2011  
 2010 “Research Illuminates the Shape of Dark Matter’s Distribution”, April 26, 2010  
 2009 “Mysterious Space Blob Discovered at Cosmic Dawn”, April 22, 2009  
 2007 “Distant quasars live in massive dark matter halos”, Feb 9, 2007  
 2006 “Hubble captures a ‘five-star’ rated gravitational lens”, May 23, 2006  
 2003 “Visual ‘Mirages’ Probe Distribution of Dark Matter”, Dec 18, 2003
